

# Forget About Me

## Escape the Fate

I'm done with everyone,  
I'm sick of everything.  
I'm living on the break of death, caught  
In a web of lies and deceit. I've lost all sense of my reality,  
Everyone is just a critic, a saint,  
So judge me if you wanna  
But you won't destroy me (won't destroy me, won't destroy me). (This time let's get it started)  
Dying on my knees, call me pathetic but I  
Got good company, I'm not alone.  
Nothing to believe, I'm just a loser,  
Don't you try and save me now.  
Kiss it all goodbye and forget about me! (Forget about me)  
Yeah! I'm over listening,  
I don't need anything.  
I'm a classic train wreck walking,  
I'm death too their words their talking. I'm locked in this prison of society,  
This worlds full of liars and cheats.  
Call me what you wanna  
But you won't destroy me. (This time let's get it started)  
Dying on my knees, call me pathetic but I  
Got good company, I'm not alone.  
Nothing to believe, I'm just a loser,  
Don't you try and save me now.  
Kiss it all goodbye and forget about me! (Forget about me, forget about me)  
Forget about me!  
I said forget me!  
Oh! Forget about me!  
Oh! Dying on my knees, call me pathetic but I  
Got good company, I'm not alone.  
Nothing to believe, I'm just a loser,  
Don't you try and save me now.  
Kiss it all goodbye and forget about me! Kiss it all goodbye and forget about me!
