Coming Closer

The Sweet Serenades

I'm covering my eyes
I can't see what's coming
The feelings arise
I can ear your heartbeat, feel you breathing

But ever such a long time ago
Since I opened up the gates and just let it flow

Chorus:
Coming closer
(In my head it's hard to stay)
Coming closer
(And I run away, hide away...)

I know you by now
The way you moan and your legs start trembling

I hold it back, I hold it back,
Why? I can't explain

It's not you, it's not me
It's just the way it is
The impossible attracts us in our hopeless bliss

(repeat chorus 3x)
