

# Nothing

Ji Nilsson

You don't call me anymore  
And you don't have to  
You don't need me anymore  
And that's fine  
Don't you love me anymore?  
Cause you used to  
Now I'm not even sure I want your time  
And you say I ask too much of you  
But you left nothing  
And you say you know the truth but you know nothing And you stepped in my bed rested your head  
Said we were for life  
You told me I was someone I was the one  
Baby did you lie or was your heart your shoulder yeah we're older  
But I'm still the same and I just miss you sometimes You don't see me in the way  
You used to  
When did it go away? I wonder is it gone?  
I don't want you to stay I need to I need you  
No matter what you say it just comes out wrong And you say you want me in your life but you do nothing  
Why don't you call me up sometime and tell me something Cause you slept in my bed rested your head  
Said we were for life  
You told me I was someone I was the one  
Baby did you lie or was your heart your shoulder yeah we're older  
But I'm still the same and I just miss you sometimes And it looks so easy  
For you to not need me  
Was I nothing  
Nothing at all to you  
Didn't I make you happy?  
Didn't you say you loved me?  
Now that's nothing  
Nothing at all to you And you slept in my bed rested your head  
Said we were for life  
You told me I was someone I was the one  
Baby did you lie or was your heart your shoulder we are older  
But I'm still the same and I just miss you sometimes
