Someday

Soul Embraced

You push me and I shove back
I'm the weak one always getting harassed
Violence, my last solution
Taking out the problem, the only way outDoes the way I look
Make me that different from you?
Does the way I look
Make me that different from you?I'm sick of being abused
What have I ever done to you?
I can only take so much
Today is the day I wash my hands off youWill we ever learn someday?
Can you take back the pain you have given?
Will we ever learn someday?
Can you take back the pain you have given?Today's the day I put my torment to an end
Today's the day I put my torment to an endDoes the way I look
Make me that different from you?
Does the way I look
Make me that different from you?Will we ever learn someday?
Can you take back the pain you have given?
Will we ever learn someday?
Can you take back the pain you have given?Today's the day I put my torment to an end
Today's the day I put my torment to an end
