

Let There Be Light

Chris August

[Verse]

I'm tired of secret keeping, livin in the dark
I'm ready to say the words You were speaking back at the start
Come and flood the corners of my heart[Chorus]

I say let there be light, I need mercy tonight
Wanna feel it like the sun is rising
Revealing what the shadows hiding
I say let there be light, I need Your mercy to shine
Start living what I've been believing
What I got I want the whole world seein
Let there be light[Verse]

I'm feeling something happening, I'm finding hope again
It feels like the walls are finally cracking and Your love is pouring in
I'm seeing this is good just like You did[Chorus]

I say let there be light, I need mercy tonight
Wanna feel it like the sun is rising
Revealing what the shadows hiding
I say let there be light, I need Your mercy to shine
Start living what I've been believing
What I got I want the whole world seein
Let there be light[Bridge]

I was scared of what the shame would do
If I started coming clean to You
But suddenly it's darkness that's afraid[Chorus]
I say let there be light, I need Your mercy tonight
Wanna feel it like the sun is rising
Revealing what the shadows hiding
I say let there be light, I need Your mercy to shine
Start living what I've been believing
What I got I want the whole world seein

Im tired of secret keeping
So let there be light, let there be lightIm tired of secret keeping
Let there be light
