

# Lucky Day (2015 Remastered Version)

**Mick Jagger**

I know you're livin, in a fantasy  
I know that love has got the best of me cash your chips  
I know you're on the slide  
Trust in me for I will be your guideIt's your lucky day baby  
It's your lucky day now  
It's the only way  
To leave this town behind  
It's the only way  
To leave this town alive  
It's your lucky day baby  
It's your lucky day nowCareful now of the dogs that park  
But watch out now the pool is filled with sparks  
You're in the pit  
The snakes begin to writhe  
But help is here  
I throw you down a lineIt's your lucky day baby  
It's your lucky day now  
It's the chance  
To leave this town behind  
It's the only way  
To leave this town aliveI know you're living in a fantasy  
Yes I know that love has got the best of meIt's your lucky day baby  
It's your lucky day now  
It's the only way  
To leave this town behind  
It's up to you  
You are the one to decide  
It's the only way  
To leave this town alive
