Follow My Heart

Fair Warning

I saw you at midnight in a dream that I had
From nowhere you stood there and you seemed so sad
And a vicious decision is drivin' me mad
Should I follow my head or follow my heart?
You were different, indifferent, unbelievably cool
I approached you to show you that I'm nobody's fool
And an error caused terror as I sensed your dare
Should I follow my head or follow my heart?
Should I follow my head or follow my heart?
You've got the lead, baby, I've got a start
Should I follow my head? Should I follow my heart?
Should I follow my head or my heart?
Ooh, I saw you at midnight in a dream that I had
From nowhere you stood there and you looked so sad
And a vicious decision is drivin' me mad
Should I follow my head or follow my heart?
Should I follow my head or follow my heart?
You've got the lead, baby, I've got a start
Should I follow my head? Should I follow my heart?
Should I follow my head or my heart?
Should I follow my head or follow my heart?
Ooh, should I follow my head or follow my heart?
Should I follow my heart?
Ooh, should I follow my head or follow my heart?
You've got the lead, baby, I've got a start
Should I follow my head? Should I follow my heart?
Should I follow my head or my heart?
Should I follow my head or follow my heart?
You've got the lead, baby, I've got a start
Should I follow my head? Should I follow my heart?
Should I follow my head or my heart?
Ooh yeah
