

# Faithfully

Chris August

Some say it's just the nature of the beast  
When you love somebody so passionately  
Time has a way of stealing  
That raging fire you're feeling  
Leaving the ashes laying at your feet  
Those fools of little faith will never know  
Those higher places two hearts can go  
Where time is standing still  
And love will burn until  
The heaven and the earth have come and gone  
This fire inside for you is constant as the morning star  
And you will be forever in my heart  
As long as there's a river  
Searching for an endless sea  
I will always love you, faithfully  
Tonight we'll raise a glass to lovers across the ages  
We'll hold each other and toast to the day  
When history's said and done  
And we'll still stand as one  
Somethings were never meant to fade away  
This fire inside for you is constant as the morning star  
And you will be forever in my heart  
As long as there's a river  
Searching for an endless sea  
I will always love you, faithfully  
This fire inside for you is constant as the morning star  
And you will be forever in my heart  
As long as there's a river  
Searching for an endless sea  
I will always love you, faithfully
