

# Know You Better

## Reality Check

Simply understanding  
You see me when no one's around  
Frustration shows my patience  
It seems I'll never get this right To get to know you better  
To love you more than myself  
To give you everything  
All of me, all of me I am human  
I borrow this excuse for my pride  
Inconsistent independent  
It seems I'll never make this right Waiting for a sign to fall  
Into my lap from the sky  
Pockets full of time  
It seems I've waited here forever
