

Know You Better

Reality Check

Simply understanding
You see me when no one's around
Frustration shows my patience
It seems I'll never get this rightTo get to know you better
To love you more than myself
To give you everything
All of me, all of meI am human
I borrow this excuse for my pride
Inconsistent independent
It seems I'll never make this rightWaiting for a sign to fall
Into my lap from the sky
Pockets full of time
It seems I've waited here forever
