Trouble You A Trouble Me

Ini Kamoze

Down in the region where I rest

It's the survival of the hardest

One man, well, cool, the next man, tense

Some sounds like these across the fence will Trouble you, they trouble me, no I

I would'a just flash me things

Bubble you, they bubble me, yes I

Forward ina me ringTrouble you, they trouble me, no I

I would'a just flash me things

Bubble you, they bubble me, yes I

Forward ina me ringSome man just born to nice up, dance

See my love down in tight romance, yea

The essence of ishence fills the air, yea

You're free to look but don't you dare stare Trouble you, they trouble me, no I

I would'a just flash me things

Bubble you, they bubble me, yes I

Forward in ame ringTrouble you, they trouble me, no I

I would'a just flash me things

Bubble you, they bubble me, yes I

Free to flip and come inAnd in I region forces raid, wrong way

Man, pick up corn for razor blade

The nobles of English would feel sad, no doubt

When some thing's good, we say "It bad Iah" Trouble you, they trouble me, no I

I would'a just flash

Bubble you, they bubble me, yes I

Forward in a me ringTrouble you, they trouble me, no I

I would'a just flash me things

Bubble you, they bubble me, yes I

Forward in a me ringTrouble you, they trouble me, no I

I would'a just flashed

Bubble you, they bubble me, yes I

Forward in a me ringTrouble you, they trouble me, no I

I would'a just flashed me things

Bubble you, they bubble me

Forward ina me ringTrouble you, they trouble me

I would'a just flashed me things

Trouble you, they trouble me
