

# In A Lonely Place

## Gene Loves Jezebel

I don't know why you're draped in sorrow  
the emptiness fills your eyes  
The wind it calls to you no more sorrow  
A voice that never lets you down  
I don't know why you never come round  
I've always been here  
Don't you want some happiness  
I don't know what it means to be alone  
in a lonely place  
The sun it casts a weary shadow  
My words are falling on deaf ears  
To kiss your face  
Would bring sorrow  
To dream within a veil of tears  
I don't know why you don't come around  
I'll always be here  
Don't you want some happiness  
I wonder what it means to be alone  
in a lonely place
