

When I'm With You

Faber Drive

Saw you walk in to the room, thought I'd try to talk to you
Babe, am I ever glad you wanted me too
It's been two years to the day, half the time I've been away
I know I'm not there enough but that is gonna change
'Cause I'm coming back to show you that
I'm keeping the promise that I made When I'm with you, I'll make every second count
'Cause I miss you, whenever your not around
When I kiss you I still get butterflies
Years from now, I'll make every second count
When I'm with you Yeah, we've had our ups and downs but we've always worked them out
Babe, am I ever glad we got this far now
Still I'm lying here tonight wishing I was by your side
'Cause when I'm not there enough nothing feels right
So I'm coming back to show you that I'll love you the rest of my life When I'm with you, I'll make every second
count
'Cause I miss you, whenever your not around
When I kiss you I still get butterflies
Years from now, I'll make every second count
When I'm with you, when I'm with you Whatever it takes
I'm not gonna break the promise I made When I'm with you, I'll make every second count
'Cause I miss you When I'm with you, I'll make every second count
'Cause I miss you, whenever your not around
When I kiss you I still get butterflies
Years from now, I'll make every second count
When I'm with you, when I'm with you
When I'm with you, when I'm with you
