You Cheated Me

Martha Wainwright

I know you've got to go
And I wanted to be afraid to say
But I'm not
I'm scared to death of what you've becomeYou were my only ally
Now you're looking around for an alibi
Why don't you go ask your new set on the set of lies?You cheated me and I can't believe it
I've been calling since four o'clock last night
You cheated me and I can't believe it
I saw you singing and dancing in the rain
All the way homeYou left the keys in the door when you left that night
I don't wanna point the finger but I can't help it
Why don't you run your scared little ass down the block?
I'll catch up to you when you come back andYou cheated me and I can't believe it
I've been calling since four o'clock last night
You cheated me and I can't believe it
I saw you singing and dancing in the rain
All the way homeWhen all the bills have been unrolled
And your story has been untold
Tell me if it was worth it
To see the whole damn thing unfoldYou cheated me and I can't believe it
I've been calling since four o'clock last night
You cheated me and I can't believe it
I saw you singing and dancing in the rain
All the way homeYou cheated me and I can't believe it
I've been calling since four o'clock last night
You cheated me and I can't believe it
I saw you singing and dancing in the rain
All the way homeYou cheated me and I can't believe it
