Armageddon

HolyHell

The world is turning into the night
Stars are falling
Heaven's calling
Hell is alive
The moon is dark
And the sun won't give her the light
The end has comeTemptation pulls at your heart
A burning flame lights the way
Like a thief in the darkWhere light is light
Where black is night
Till the breaking of dawnWhere lightening brings
Angel's wings
The thunder roars onNow the end has come
Darkness rules the setting sun
The battle is over and won
ArmageddonThe world is turning into the night
Stars are falling
Heaven's calling
Hell is alive
The moon is dark
And the sun won't give her the light
The end has comeThe Shadows dance in the dark
Celebrate the darkest fate
While the heavens move onThere is no light
It's black as night
A world without dawnNow angels scream
Above the dreams of the
ArmageddonNow the end has come
Darkness rules the setting sun
The battle's over and won
Armageddon, ArmageddonThe world is turning into the night
Stars are falling
Heaven's calling
Hell is alive
The moon is dark
And the sun won't give her the light
The end has come
