

Come Inside (Interlude)

Prophet Jones

Come on
Come on, come on
Come on Lets create a fantasy
One on one, just you and me
don't want no candle light tonight
want to taste your loving
So come a little close
And I'll make you feel so good
I'll make you feel so right[Chorus: x2]
Girl I want to come inside
Your body's calling me
I want to lay you out
And get freaky I'll give you all you need
Make you lose control
don't hold back, let your love flow free
Can I love you down
Sex you down
Hold you tight
through the night, baby
So you better lock the door
Throw away the key
Slide them panties down
Go all the way with me[Chorus: x2] I can see that, that you want it
Stop playing get up on it [Repeat: x4][Chorus]
