Star Girl

Katie Carroll

I must be a star girl (3x)
I can see em lookin' at me
I'm a star girl (2x)

They can't reach me
I'm millions of light years away
I can see the end, see the end of the universe (2x)
I can see the end, where the supanovas play
You could be my star boy (3x)
I see em lookin at you too
Be my star boy (2x)
They can't reach you, you're millions of light years away
Take me to the end, to the end of the universe (2x)
Take me to the end where the supanovas play
Love is to the end, to the end of the universe (2x)
Love is to the end, where the supanovas play
I'm a star girl (2x)
They can't reach me cause I'm millions of light years
They can't reach me I'm millions of light years aways.
