Decapitate Me

Floda

Your smile,But I see the tears in your eyes and I'm thinking,why (yea),did it have to be this way,
Pain always
Baby we tried and you will be alright
You told me all you need is a little time away
From you and I but

What about me and the plans that I've made?
What about my heart and the love that I have?
What about the child we was gonna raise together?
What about me? (Uh--hh)

Together take..me now,right now oh babe
Rathup in no me then,no you and me
I'd rather take a bullet there straight in my head,than live without you (uh...)

Feeling this freedom that I don't need
Pardon my world missing without you and me
I'd rather take a bullet there straight in my head,than live without you

You away now and I ain't gonna be loving anybody ain't feeling
(Feel like I should...)
Take a shut for the pain now coz I ain't tryna be a d-e-freek
(Oh boy no,I don't flip..)

Feel like I'm on a death roader
Can't be without my ba-bae
(can be without my ba-bae....)
I swear I feel towder-round
You wanna go tell me....

What about me and the plans that I've made?
What about my heart and the love that I have?
What about the child we was gonna raise together?
What about me?

Together take..me now,right now oh babe
Rathup in no me then,no you and me
I'd rather take a bullet there straight in my head,than live without you (uh...)

Feeling this freedom that I don't need

Pardon my world missing without you and me
I'd rather take a bullet there straight in my head,than live without you (u..mmm)

Said you'd be around,no baby
Now you got me so confused
Better come and tell me right now (right now)
Said I'd have no worries babe
Buh then you go and do it is the way
You ain't gonna leave me no,no,no-ooo
(Yea...ye---ah....yeaaaahh)

Together take..me now,right now oh babe
Rathup in no me then,no you and me
I'd rather take a bullet there straight in my head,than live without you (uh...)

Feeling this freedom that I don't need
Pardon my world missing without you and me
I'd rather take a bullet there straight in my head,than live without you.....
