

You Have Killed Me

Morrissey

Pasolini is me,
Accattone, you'll be,
I entered nothing and nothing entered me,
Till you came with the key,
And you did your best but?As I live and breathe,
You have killed me,
You have killed me,
Yes I walk around somehow,
But you have killed me,
You have killed mePiazza Cavour,
What's my life for?Visconti is me,
Magnani,
You'll never beI entered nothing and nothing entered me,
Till you came with the key,
And you did your best but?As I live and breathe,
You have killed me,
You have killed me,
Yes I walk around somehow,
But you have killed me,
You have killed meWho am I, that I, come to be here?As I live and breathe,
You have killed me,
You have killed me,
Yes I walk around somehow,
But you have killed me,
You have killed meAnd there is no point saying this again,
There is no point saying this again,
But I forgive you,
I forgive you,
Always, I do forgive you
