Plans (feat. Brandyn Burnette)

Elephante

[Verse 1]
Do you remember doing what you're told
Caught in a day dream, being on your own
My soul is younger, my body's overgrown
Hold to the feeling, before we get too old[Pre-Chorus]
I'm not like all of my friends
I'd rather get lost in conversation
Until we fade into each other again
[Chorus]
I won't let this moment, slip out through my hands
No one ever knowing, if we had a chance
I like when we're falling, who knows where we're heading
Love is what happens, when you make other plans[Breakdown]
I feel something calling
I feel something calling[Verse 2]
I fell deep in, swimming to the stars
Hard to pretend, we know where we are
How do I treat you, you deserve the best
The way you teach me, to never second guess[Pre-Chorus]
I'm not like all of my friends
I'd rather get lost in conversation
Until we fade into each other again[Chorus]
I won't let this moment, slip out through my hands
No one ever knowing, if we had a chance
I like when we're falling, who knows where we're heading
Love is what happens, when you make other plansI won't let this moment, slip out through my hands
No one ever knowing, if we had a chance
I like when we're falling, who knows where we're heading
Love is what happens, when you make other plans[Breakdown]
I feel something calling
I feel something calling
I feel something calling
I feel something calling[Bridge]
I like what we started
Feel it calling all these years
I was once deep hearted
You found me right here
I like what we started
Feel it calling all these years

I was half deep hearted
And you found me, yeah[Breakdown]
I feel something calling
I feel something calling[Outro]
I won't let this moment, slip out through my hands
No one ever knowing, if we had a chance
I like when we're falling, who knows where we'll land
Love is what happens, when you make other plans, plans, plans
