

Cry No More

Steve Wariner

I know he was cruel to you
He kept you down
He never heard the voice inside you
Never heard the sound
Of angels singing you know they are around
They look just like you their tears fall to the ground So smile it's behind you now
And in time in time
You won't cry no more
You won't cry no more Livin' in the shadows baby
Let me in
If you let his memory hold you back
You let him win
Shackles on your soul are rusty waiting for release
All I want to do is love you give you peace So smile it's behind you now
And in time in time
You won't cry no more
You won't cry no more
