

# Death Do Us Part

## A Change of Pace

You can't live to make mistakes  
When you're dead and gone  
With your heart held in my head  
The memory of your bloodstains  
All over broken picture framesHow could you tell me that I was wrong?  
When you would have done the same  
Toy with emotions until they're gone  
You would have done the sameI stole your heart ripped it out  
And smashed it on this floor  
You have no need for such a useless thing  
Broken, forever moreLife after this there's no such thing  
You replace my thoughts  
With these painful memories  
Now you're gone you're 9 feet under  
To far down to ever uncoverHow could you tell me that I was wrong?  
When you would have done the same  
Toy with emotions until they're gone  
You would have done the sameI stole your heart ripped it out  
And smashed it on this floor  
You have no need for such a useless thing  
Broken, forever moreLeave it all to me  
I won't forget about you  
Leave it all to me  
I'll steal your heart  
Leave it allLeave it all to me  
I won't forget about you  
Leave it all to me  
I'll steal your heart  
Leave it allI stole your heart ripped it out  
And smashed it on this floor  
You have no need for such a useless thing  
Broken, forever moreI stole your heart ripped it out  
And smashed it on this floor  
You have no need for such a useless thing  
Broken, forever moreNow you're gone  
You're 9 feet under  
To far down to ever uncoverNow you're gone  
You're 9 feet under
