

# I'm the Only One

## Ike Turner & The Kings of Rhythm

          Trees are things that move  
          And tell you when the wind blows  
          Flowers are things that bloom  
          And tell you when the winter goes  
          Sand is a thing that tells you when  
          To empty your shoes  
And I'm the only one you tell all this to  
          Ralph is your cat who tells you that  
          He's got to go outside  
          Jane is your friends who tells you when  
          You ought not to cry  
          I know boo she knows when you are  
          Feeling blue  
          But I'm the only one you tell all this to  
I'm the only one you tell all this to  
          Fear is a word you hear  
          All alone in the dark  
          Fun is a day in the sun  
With Ralph in the park  
          Happy's the time you find  
          A love that is true  
And I'm the only one Kathy tells all this to  
I'm the only one you tell all this to
