Phone Call

Sammie

Dipped in my phone just to find out my shawtys gone
Dipped in my phone just to find out my shawtys gone
Dipped in my phone just to find out my shawtys gone
Dipped in my phone now shes gone
[verse 1]Yeah just touched down
From outta town
Turn my cell phone on
Got a voicemail
From my girl
It said sammie I'm gone
So I hurried to my ride
Doing ninety on the highway
Calling you but getting a busy signal from my babe
Why wont you answer my call
Oooooh girl
[chorus]I dont even know why you left me in the first place
Baby pick up why'd you leave me in the first place
Girl is it even my fault
Ooooh
Im trying to get through to you
I need the network ooh what did I do to you?
I need the network gotta find my baby
Talk to my lady
But I cant she wont answer my phone
Dipped in my phone just to find out my shawtys gone
Dipped in my phone just to find out my shawtys gone
Dipped in my phone just to find out my shawtys gone
Dipped in my phone now shes gone
[verse 2]Now I'm stressed out
Im really stressed out
I got the crib and I'm all alone
This is messed up
Really effed up
Leaving a letter she aint answering her phone
So I hurried to my ride
Doing ninety on the highway

Calling you but getting a busy signal from my babe
Why wont you answer my call

Oooooh girl
[chorus]I dont even know why you left me in the first place
Baby pick up why'd you leave me in the first place
Girl is it even my fault
Ooooh
Im trying to get through to you
I need the network ooh what did I do to you?
I need the network gotta find my baby
Talk to my lady
But I cant she wont answer phone
Dipped in my phone just to find out my shawtys gone
Dipped in my phone just to find out my shawtys gone
Dipped in my phone just to find out my shawtys gone
Dipped in my phone now shes gone
[verse 3]Ring ring ring I know you see is me calling
Got me looking crazy baby I'm calling
Tired of your voicemail voicemail
Shawty answer your phone
Ring ring ring I know you see is me calling
Got me looking crazy baby I'm calling
Tired of your voicemail voicemail
Shawty answer your phone
[chorus]Im trying to get through to you
I need the network ooh what did I do to you?
I need the network gotta find my baby
Talk to my lady
But I cant she wont answer her phone
Im trying to get through to you
I need the network ooh what did I do to you?
I need the network gotta find my baby
Talk to my lady
But I cant she wont answer her phone
