Thrill Kill

The Damned

Black night, all still, stealth calls, cold kill
Night gloves, black gown, job done, quit townWe're just having some fun, messing 'round with a gun
Don't get excited, I'm just killing some time
It's a fantasy crime and I'm living it againCops swarm the scene, detective is keen
Autopsy, the clue, strobe flashing, pursuedWe're just having some fun, messing 'round with a gun
Don't get excited, I'm just killing some time
It's a fantasy crime and I'm living it again
