

Don't Fight It

Shanice

Yeah, don't matter, just don't fight it
Don't matter, just don't fight it
Yeah, don't matter, just don't fight it
Don't matter, just don't fight it, come on I've been in need of some affection
How did I end up in your direction?
You're still friends with my ex-boyfriend
I don't know if I was wrong to pretend That I never thought of you and me as getting it on
Just so happens that I'm still all alone
Know that I've turned you down before
But I won't turn you down no more, baby If you check me out, you can let me know
I'm not gonna fight it if my heart says so
If you wanna put it down, baby you should know
I'm not gonna fight it no more If you wanna check me out, you can let me know
I'm not gonna fight it if my heart says so
If you wanna put it down, baby you should know
I'm not gonna fight it no more I've been thinking 'bout your attention
Ever since the day you began to mention
That you wanted me oh, so very long
Never really knew you were feeling that strong It could be confusion with you and your boy
Far as I'm concerned I ain't there no more
My love it's been enough time
When I can't get you off my mind, my mind If you check me out, you can let me know
I'm not gonna fight it if my heart says so
If you wanna put it down, baby you should know
I'm not gonna fight it no more If you wanna check me out, you can let me know
I'm not gonna fight it if my heart says so
If you wanna put it down, baby you should know
I'm not gonna fight it no more I never thought it would ever be real
Can't stop thinking 'bout the way I feel boy
Never thought of it as right before
But I can't let him keep me unhappy no more Didn't think it would happen to me
Making a decision over history
Is it wrong to be into you? What am I supposed to do
And he's not thinking 'bout me, baby Don' fight it
Yeah, don't matter just don't fight it
Don't matter just don't fight it
Yeah, don't matter just don't fight it
Don't matter just don't fight it Yeah, don't matter just don't fight it
Don't matter just don't fight it

Yeah, don't matter just don't fight it
Don't matter just don't fight it If you check me out, you can let me know
I'm not gonna fight it if my heart says so
If you wanna put it down, baby you should know
I'm not gonna fight it no more If you wanna check me out, you can let me know
I'm not gonna fight it if my heart says so
If you wanna put it down, baby you should know
I'm not gonna fight it no more If you check me out, you can let me know
I'm not gonna fight it if my heart says so
If you wanna put it down, baby you should know
I'm not gonna fight it no more
