

# full circle

## Haelos

We've come full circle  
Like a serpent coiling no end  
Just the same mad circus Wait For blood to blossom  
The saints and souless to mend  
Like we've all forgotten again  
Round again  
Coming round again  
Colours in my head  
You  
You  
Colours in my head  
You  
You If my heart's sinking  
Then we'll walk this waste land again  
In some dead bar drinking  
Used to be so simple my friend Round again  
Coming round again  
Round again  
Coming round again  
You  
These colours in my head  
You  
These colours in my head  
You  
These colours in my head  
You  
These colours in my head  
You  
These colours in my head  
You  
These colours in my head  
You  
These colours in my head  
You  
These colours in my head  
You
