

Changes

Langhorne Slim & The Law

Things could be stranger
but I don't know how
I'm going through changes now I could spend a lifetime figuring it out
I'm going through changes now
That have just begun
Under a purple sun There's many reasons
we are
what we've become I'm going through changes
ripping out pages
I'm going through changes now I knew it once
but I forgot
I'm going through changes now We want everything but
what we've got
I'm going through changes now Maybe it's too soon
Under a purple moon
But I'd ride off with you
In a big balloon I'm going through changes
Rattling cages
I'm going through changes now Things could be different
but I don't know how
I'm going through changes
through all the strangeness
I'm going through changes now
