

# I Drink I Smoke (feat. Snoop Dogg)

## Belly

[Hook]

I drink, I smoke

Bitch, I go harder sippin on Patron till it taste like water

I drink, I smoke

And who the f-ck cares

Smoking on this kush till it taste like air I drink, I smoke (x8)

Bitch I go harder sippin on patron till it taste like water

I drink I smoke

And who the fuck cares

Smoking on this kush till it taste like air

I drink I smoke (x8)[Snoop Dog - Verse 1]

Can ya, can ya get me high

Im feeling like Im floating through the friendly skies

Baby baby can ya fix me something nice with ice

Overseas with some Gs doing what I like

Repremando, fulla endo

Blowing like Im posed to blow

Lil Joe from cocamo, all he do is tokes and blow

Comfortable, knock a hoe, mix cran and vodka tho

Make her lock her do cause Im so biteable, edible, likeable

Yada da fiend got what I need, know what I mean, burn

On our Ps and our Cs we got trees to burn

So listen up grab your bottle lift it up

Grab that blunt and blaze it up

You know why[Hook][Belly - Verse 2]

Hi, hi, man I feel so high

Why they call it high when I be feeling so goodbye?

Im smoking on that shit yo mama told you never try

I be drinking on that shit that make you wanna tell a lie

You can say Im gone when I be on that patron

And I brought a zone of kush

You might just need a cushion to zone

They can say its wrong when the day is long

And we dont wanna go home

We wanna get fucked up to our favorite songs[Hook][Belly - Verse 3]

Drunk drunk man I feel so drunk

Baby I dont really dance but I can beat it like a drum

I stumble out the club being greeted by the sun

And really fuck a pound cause I get weed in by the ton

She wants to rock so I just popped the Ciroc  
Watch Ill bet by 5 oclock the panties drop on the dot  
Baby dont you stop go round and round go up and down like the stocks  
I got so high that I ended up at the top[Hook]
