

# Marijuana (feat. Don Carlos)

## Slightly Stoopid

When she's around yeah I love Marijuana  
She is one of my favourite lovers  
Yes I love Marijuana  
What would I do without her  
In my head she's always make me feel so iry  
If I are cool I'ma clear meditation Marijuana make me feel so good  
Marijuana make me feel so nice  
When she's in my head I feel open  
She always lands on my hand and I feel so fine  
Marijuana wooh All I need is take some bullets with the gun  
This trailer full of herbs I let sit in the sun  
Marijuana  
So many things that we love but only a few that we need  
It's the good sensi bean with them herbs with no seeds See all love or just hate me I just don't care  
In the end in love I really just share  
Marijuana, marijuana  
Then she surround me One thing to do open the mind get disturbed  
Get a match and then light some herbs  
Only girl share nothing in this world  
It's the herb that smells just like rose Love marijuana  
I love marijuana nice  
I love marijuana  
She is still my lover
