

Turn Off the Lies

I LOVE MAKONNEN

Now I been loving you and loving you for so long
And you still do me wrong
Baby I don't understand
Tell me what do you have planned?
Cause I been thinking 'bout us all the time
And what can I do to bring more smiles here for you
Girl you see I'm choosing you
Won't you turn off the lights, turn off the lights?
Cause baby I don't want to see all the lies you hide from me
Won't you turn off the lights?
Just turn off the lights
Cause baby I don't want to see all the lies you hide from me
Now you been loving me and loving me and loving wrong
And that I know, I been trying to take it slow
My friends think that I should go, aye
But I'm like nah, nah, girl, you're the one
I'mma stand right here, until we try to make it right
We fuss and fight every other night
Won't you turn off the lights?
Won't you turn off the lights?
Cause baby I don't want to see all the lies you hide from me
Won't you turn off the lights?
Won't you turn off the lights?
Cause baby I don't want to see all the lies you hide from me
Won't you turn off the lights?
Turn off the lights
Cause baby I don't want to see all the lies you hide from me
Baby I don't want to see all the lies you hide from me
Baby I don't want to see all the lies you hide from me
