La Lune (feat. Dan Smith)

Madeon

Sometimes these memories pull us under
We get lost talking, days gone by
But we're not getting any younger
Now it feels like real life has dragged us in it's timeSo we stay awake, like we always do
And we try to recreate
And enough has changed and I'm next to you
It doesn't feel the sameI would never change, what our past is
Written in our bones, it's who we are
I just can't control, where my mind goes
When it goes to farSo we stay awake, like we always do
And we try to recreate
And enough has changed and I'm next to you
It doesn't feel the sameDoes it matter if we change?
Does is matter at all?
Don't you worry about me friend,
Don't you worry at allDoes it matter if we change?
Does is matter at all?
Don't you worry about me friend,
Don't you worry if it doesn't feel the sameIt doesn't feel the same
Same
SameIt doesn't feel the same
Same
Same
It doesn't feel the same
