# Not Like It Was With You

## Pam Tillis

You may see me and think that I'm happy
'Cos I'm out with somebody new
Well, I made make believe
He's everything I need
But it's not like it was with youIf I'm always the laugh of the party
And it looks like my heartaches are few
You may think that I found
What makes the world go around
But it's not like it was with youNot like it was holding you
I tried forgetting, what else could I do?Please, believe me that looks are deceiving
And so often a smile has the truth
Take a second look at me
And you are bound to see
That it's not like it was with youNot like it was holding you
I tried forgetting, what else could I do?Please, believe me that looks are deceiving
And so often a smile has the truth
Take a second look at me
And you are bound to see
That it's not like it was with you
That it's not like it was with you
