

# Room 21

## Hinder

Advisory - the following lyrics contain explicit language:

She said, "Nice to meet you"  
But she didn't tell me her name  
With red lipstick and pale pink boots  
This bitch just blew me away "Cocktails later", she said to me  
"Don't be late and here's my key" "Wanna know what happened next?"  
Just take a wild guess  
I stumbled up the stairs  
To room 21 I walked in and saw her on the bed  
There was nothin' to be said  
When we were done  
She said, she loves the taste of my oh, oh, oh, oh, oh When I came to next mornin'  
There were cigarettes put out on the floor  
Her panties hangin' from the doorknob  
Yes, she left me cravin' more I swear to God, you'd feel the same  
If you got used by what's her name "Wanna know what happened next?"  
Well, take a wild guess  
I stumbled out the door  
Of room 21 I walked out with her in my head  
I can't remember a damn thing she said  
When we were done  
She said, she loves the taste of my oh She said, "Nice", she said, "Nice to meet you"  
I never forget her face  
Here we go again and I can't wait  
I'm gonna get used by what's her fuckin' name "Wanna know what happened next?"  
Just take a wild guess  
I stumbled out of the door  
Of room 21 I walked out with her in my head  
I can't remember a damn thing she said  
Stumblin' out the door  
Of room 21, room 21, room 21  
Room 21, room 21, room 21
