I Can Almost See Them

Tomahawk

Up Scope
But I can almost see themJust out of focus, you're so far away
Right out of focus, you're so far awayDown periscope
We all need, all need some rope
But I can almost see themJust out of focus, you're so far away
Twist the barrel, not so far awayWe all need some rope every now and then
We all need some rope every now and thenBut I can almost see them
