

I Can Almost See Them

Tomahawk

Up Scope

But I can almost see them Just out of focus, you're so far away

Right out of focus, you're so far away Down periscope

We all need, all need some rope

But I can almost see them Just out of focus, you're so far away

Twist the barrel, not so far away We all need some rope every now and then

We all need some rope every now and then But I can almost see them
