## **Dreams**

## **Ashanti**

Dreams are real
All you have to do is just believe

Dreams are real

All you have to do is just believe There is nothing that should ever

Take your heart away from

What it is you wanna do

You should always go with what you love

Don't follow no one else

Just do what's good for youTell 'em, dreams are real

All you have to do is just believe

Dreams are real

All you have to do is just believeSometimes people try to bring you down

They wanna see you frown

Just keep your faith in you

Does it matter if they try to tell you

That you'll never make it

This is what you doTell 'em, dreams are real

All you have to do is just believe

Dreams are real

All you have to do is just believeTell 'em, dreams are real

All you have to do is just believe

Dreams are real

All you have to do is just believeDreams are real

All you have to do is just believe

Dreams are real

All you have to do is just believe
