

Good Times Have Done Me Wrong

Simply Red

I drank a lot
Spent too much
Gave a lot, screwed up a lot
Now good times, you've done me wrong, so wrong
And now I feel that my lifetime is mine
Happy to drink my wine
Hangin' here, that girl of mine
Still, good times, you've done me wrong, so wrong
Remember all the good times
Remember all the good times
Remember all the good times
Remember all the good times
Good times, good times
Good times, good times
Remember all the good times
The good times, the good times
I didn't really love too much
I never really cared too much
Good times you've done me wrong
Now good times, so wrong, yeah
Remember all the good times
Remember all the good times
Remember all the good times
Remember all the good times
Good times, good times
Good times, good times
Remember all the good times
The good times, the good times
Remember all the good times
Remember all the good times
Remember all the good times
Remember all the good times
Remember all the good times
Good times, good times
Good times, good times
Remember all the good times
The good times, the good times
