Too Much Into Nothing

John Wesley Harding

I'd love to get inside your head and let's be blunt
There are other words that rhyme as well
But that's just the way I am
Understand that I am underneath your spellAm I reading too much into the way you touch me?
When you brush by, it's much too much
Am I reading too much into nothing?I know all the codes and signs, yours and mine
I read the words between your lines
Who knows what you'll do next?
I'll reflect anything you choose to shineAm I reading too much into the way you touch me?
When you brush by, it's much too much
Am I reading too much into nothing?Am I reading too much into the things you do?
And do they mean the same to you?
Am I reading too much into nothing?Am I thinking too hard about the things you say?
A glance can last me one whole day
Am I reading too much into the way you touch me?When you brush by, it's much too much
Am I reading too much into nothing?
Am I reading too much into the way you touch me?
