The Great Dividers

Unearth

It's true there were better ones
That led their people
It's true there were better ones
To lead their countryIt's true there were better ones
Who cared for this world
It's true there were better ones
But who are we to changeWithout the strength of all
The nations will crumble
The nations will crumble
The nations will crumbleFeed lies for war
Bring the nations to it's knees
Risking worldly structure and integrityFeed lies for war
Bring the nations to it's knees
Risking worldly structureThe balance of our kind
Controlled by hatred, distorted truth and lies
The balance of our kind
Controlled by hatred, distorted truth and liesUnited is the only way to stand
United is the only way to stand
Leaders of the free world
Lead into the land of the un-freeGod sent politics
Hammered down with a fist too bold
Play the council of pawns
In the quest for total controlFree us of this hate
Free us from this hateTake over the world
Does hate mean freedom?
Divide our home
Does hate mean freedom?Take over the world
Does hate mean freedom?
Does hate mean freedom?
Does hate mean freedom?Taking over the world, divide our world
Does hate mean freedom?
Taking over the world, divide our world
Does hate mean freedom?
