Good Worker

iamamiwhoami

You make a neat and tidy house, a good worker does
A pinion of labors men as capable as trustFrom a lower point of view, comes the underlying truth
Keeping yourself unaware, confident we know you care
Looking out your little mind, recognizing time has passed
Ready for some further use, denial is a virtueI make a good and steady friend there, a companion through life
But who am I, when all I am is your designated wife?From a lower point of view, comes the underlying truth
Keeping yourself unaware, confident we know you care
Looking out your little mind, recognizing time has passed
Ready for some further use, denial is a virtue
(x2)Sadly, I have not defined where you're taking me
