

# Love To Keep You Warm

## Whitesnake

If you want love, you gotta be cool  
And if you deny it, baby, you're a fool  
I'm tellin' you now  
Don't you hide it away  
Because you need love to keep you warm  
Both night and day  
I could come home late at night  
And after some lovin' baby  
It would be alright  
I've given up tryin', lyin' my way  
Because you need love to keep you warm  
Both night and day  
You gotta have love to keep you warm  
Both night and day, yeah  
I said, baby, if you need my love  
You better come home with me  
Maybe if you want my love  
You know, you got it easily  
So the sun goes down  
And the night is cold  
You know  
I won't be far away  
Because you need love to keep you warm  
Both night and day  
You gotta have love to keep you warm  
Both night and day  
You gotta have love

If you need schoolin' baby, I'll be around  
I'm ready for foolin'  
But mama don't hang around  
And every mornin', I know, you will say, yeah  
You gotta have love to keep you warm  
Both night and day  
You gotta have love to keep you warm  
Both night and day  
I said, baby, if you need my love  
You better come home with me  
Maybe if you want my love

You know, you got it easily  
But when the sun goes down  
And the night is cold  
You know  
I won't be far away  
Because you need love to keep you warm  
Both night and day  
You gotta have love to keep you warm  
Both night and day  
I ain't lyin'  
You gotta have love to keep you warm  
Both night and day  
I said, you need love to keep you warm  
Both night and day, yeah  
Oh yeah
