

Stronger (Back On the Ground)

Nick Jonas & The Administration

Wake up
To the alarm and the phone
Trying to stick out
Stuck in the world don't belong Sometimes
Some things so right can be wrong
Into the weekends
Gravity's taking it's toll I wanna know I'm not the only one around
Can you show me something deeper than I've found?
I wanna know you'll be with me
When everything around is falling down
When I finally get these feet back on the ground In the sunshine
Down on my face breaking through
Old things
That were once lost are new, hey I wanna know I'm not the only one around
Can you show me something deeper than I've found?
I wanna know you'll be with me
When everything around is falling down
When I finally get these feet back on the ground You're making me stronger
Making me stronger
Making me stronger
Than I've ever been now, yeah You're making me stronger
You're making me stronger
You're making me stronger
Than I've ever been now I wanna know I'm not the only one around
Can you show me something deeper than I've found?
I wanna know you'll be with me
Everything around is falling down
When I finally get these feet back on the ground Back on the ground, oh
Back on the ground
You're making me stronger You're making me stronger
You're making me stronger
You're making me stronger
Than I've ever been now
(Stronger, stronger) You're making me stronger
You're making me stronger
You're making me stronger
Than I've ever been now
