

Exorcismic Breeding Knife

of Montreal

There's flash of dead eyed in these horse faced hours of ours
Don't let this be how I'll be rememberedThe truest humanity seems to be in dialogue
Torn to paper shredded cowboy menace
True love never hated
The two donkey childs that will be remembered for our hearingIs there a therapist?
Is there a psychosis?
Is there a comedy outside?
How can you perform, how can you operate?
Is there a solution then?
Why is there an apocalypse?
There's no such thingHow can you operate, how can you perform, how can you exploit?
How can you operate, how can you operate, how can you perform?
How... can you operate, how can you perform?
How can you operate, how can you perform?
How...
