

What Do You Say

Taylor Swift

what do you say
when you just know
that he's the one
and you wanna go fast
but he's taking it slow
and what do you do
when he's next to you
but he's a little bit shy
well here's something
you could try
hey hey
what do you say
if we go walking down the river
all together
it's a warm and beautifull day
and I feel like
I could talk to you forever
with the sun shining bright
it feels just like
a day when everything's
gonna go just right
I know it will be a sweet memory
for you and me someday
hey what do you say
what do you see
when you look in his eyes
and there's something there
that he can't describe
no matter how he tries
and what do you feel
when you know it's real
and you can't sit still
if you don't
then I will yeah
hey hey

what do you say
if we go walking down the river
all together

it's a warm and beautifull day
and I feel like
I could talk to you forever
with the sun shining bright
it feels just like
a day whwn everything's
gonna go just right
I know it will be a sweet memory
for you and me someday
hey what do you say
my imaginations
running away
just dreaming about
what I want you to say
hey hey
what do you say
if we go walking down the river
all together
it's a warm and beautifull day
and I feel like
I could talk to you forever
with the sun shining bright
it feels just like
a day whwn everything's
gonna go just right
I know it will be a sweet memory
for you and me someday
hey what do you say
what do you say
what do you say
what do you say.
