Forever (New Recording)

PFR

I'm remembering the words inside my head
I heard them yesterday
A whisper telling me that life waits up ahead
Beyond the day to dayThrough this world will hand me my fair share of pain
Leave me broken and bruised
I know there's a Father and His Son who know my name
And They will see me through, oh yeah, I knowI believe He paid the price
A sacrifice so we could be together, forever
And I know when I see Jesus' face
All my tears will be erased forever, foreverHidden in my heart
The day He called me friend
The day He set me free
I found Him one summer dayOr better said, Jesus, You found me
I gave You my loneliness and broken heart
You gave to me Your love, Your loveI've come to know
I've come to know love
I've come to know the truth
I've come to know
I've come to know loveI believe he paid the price
A sacrifice so we could be together, forever
And i do believe I'll see the face
Of Jesus and we'll both embrace together, forever
