

The Fool

Ryn Weaver

And now I see in technicolor
A movie script lover
You chase me while I play the clown, oh
But then you know, oh
I tend to stack the deck with wild cards
You're betting all you got on a broken heart
I say don't, oh
But now you know, oh

So I curse my stars for a fair game
While you nurse my scars and the old flame
I'm a fool for you, I'm a fool for
I'm a fool for you, I'm a fool for
I'm a fool for you (you, you)
I'm a f... you (you, you) I'm a f...
If I let you down like I tend to
I'm a fool for you, I'm a fool

Now I see shades of roses
Your love, I suppose, is an ocean the ebb and the flow, oh
An undertow, oh
But I can feel the rogue inside my veins
A way to crash the castle we made of sand
Oh, I hope, oh
It doesn't show, oh

So I curse my stars for a fair game
While you nurse my scars and the old flame
I'm a fool for you, I'm a fool for
I'm a fool for you, I'm a fool for
I'm a fool for you (you, you)
I'm a f... you (you, you) I'm a f...
If I let you down like I tend to
I'm a fool for you, I'm a fool

Old dog, new treat, a shorter leash
I cannot breathe, I lock the door
You flood the gate
Tick, tick, too late
But still, you know, I'm a fool for

You (you, you)
I'm a fool for
I'm a fool for
I'm a fool for
You

(You, you) I'm a f...
(You, you) I'm a f...
(You, you) I'm a f...
(You, you) I'm a f...
(You, you) I'm a f...
(You, you) I'm a f...
(You, you) I'm a f...
(You, you)
