

# Chelsea Guitars

**Karen Kilgariff**

Can we get a little more talent in the monitors, that would help me tremendously  
Your sign said open, that's why I came  
Knew I'd get nothing I wouldn't pay for  
You and your plaid shirt Black retro frames  
You ask me questions, then some more questions  
I don't know nothing, I am ashamed  
I just came from one thing but now I'll take anything oh oh oh oh, Chelsea Guitars

For so much small space theres so much pain  
One Angeles blues rift but only sadder  
Could I get a capo with extra distain  
Yeah clearly it's my fault you're not a rockstar by now oh oh oh Chelsea Guitars  
Oh oh how precious you are

Solo

Thank you  
I bet you're in a band with some really awesome name  
Like Mike and the Assholes, or Tetherball Queen, or Pass me the Beer Nuts, or the Orientals, or Mission  
Improbable, or Cisiline, or Spandex Pajamas, or My Cat is Famous on YouTube  
Chelsea Guitars oh oh how precious you are
