

Going Places

Molly Nilsson

Yesterday we drove to the other side of town
But most nights we're only riding around. We talk about the holidays we never take
And it seems like we're always on the make. I know we've gone through phases
But we're always going places. I know we're going places.
I always had the feeling
My life would be magic.
I guess everybody feels that way When life is sublime like the other night
It seems so hard to die.
I only feel alive when it stings me a little inside. We're going places tonight,
We're going places all the time.
We're going places in our minds,
We're going places all the time. Our dreams are always too big to fit in one night,
So we have to dream with our eyes open wide.
When your dreams come true, they abandon you,
Until you find some new. We're going places tonight,
We're going places all the time.
We're going places in our minds,
We're going places all the time.
