

# Early In the Morning

## Vanity Fare

Evening is the time of day  
I find nothing much to say  
Don't know what to do but I come to  
When it's early in the morning Over by the window day is dawning  
When I feel the air  
I feel that life is very good to me, you know In the sun, there is so much yellow  
Something in the early morning meadow  
Tells me that today, you're on your way  
And you'll be coming home, home to me Night time isn't clear to me  
I find nothing near to me  
Don't know what to do but I come to  
When it's early in the morning Very, very early, without warning, I can  
Feel a newly born vibration  
Sneaking up on me again There's a song bird on my pillow  
I can see the fun in weeping willow  
I can see the sun, you're on your way  
And you'll be coming home, home with me
